ÉDITION 2021

ÉDITO

However you look at it this year will be on the record as an extraordinary year. To produce this edition has been an obstacle course ! But, as they say, together we are stronger.

2021

So, thanks to the **92 subscribers** who, again this year, have put their trust in us. With them we have overcome the obstacles in order to offer you the 2021 edition. We hope you will be pleased with it and that it will give you useful information, entertain you, and make you smile !

As for the small print, we think it's important to stress that if the majority of faces in this magazine are not masked all the photos were taken respecting barrier rules and social distancing.

Please note that certain photos were taken before the pandemic and others show families or couples who live together in the same bubble.

The **frencheese** team is always masked and socially distanced. After all, what are zoom lenses for ?

Happy reading !

Spices, the story of Saint Malo, and the Roellingers are closely intertwined. This family of chefs has made in the Maison du Voyageur a place for research, inspiration and the creation of mixes of herbs, spices and seaweeds.

In the laboratory kitchen the mixes of spices are weighed, roasted, dried, crushed and milled, then packed on the premises.

Music above all

For more than 40 years the school of music has been a joint venture between towns where everyone pools staff and equipment.

More than **20 disciplines** are taught in the school at Cancale and in the branches in St Jouan, St Père, and St Méloir. Individual lessons, groups and various workshops are provided for beginners and advanced musicians. The school also offers painting workshops several times per week.

The secret of the long life of the school? A stable and united group of teachers backed by Béatrice in the office.

New premises will be available soon which will increase the quality of the school : in fact it

will unite with the future **centre for cultural and club activities** in the heart of Cancale . It is planned to be the place for lively interactions between everyone, where all can meet together to practise, play, study and enjoy themselves...

Nestled in one of the oldest houses in Cancale the town library is open all year round.

Bibliothèque

Caroline, Pascal, Laure and the volunteers invite you to read there and then or to borrow from the 14000 books or magazines available. Whether you are a local resident or passing through you are welcome ! The cost is low and accessible to everyone.

Rooted in the historic quarter but firmly looking to the future the library also offers audio books, DVD's, one hours free internet access per day as well as unlimited wifi. The library catalogue is available on line allowing you to reserve books and to follow events at your library !

A lively place, join in with what goes on : during the school year, on Friday mornings, the library is reserved for young readers from 0 to 3, for baby bookworms. During the school holidays, on Thursday mornings, discover story time, for children from 3 to 10 years old.

Throughout the year the cinema and the library join forces for «books on the silver screen».
